Nomenclature follows Blockeel & Long (1998), *A check-list and census catalogue of British and Irish mosses.*

* denotes an aggregate species; names of subspecies and varieties are underlined. Mark fruiting taxa by adding 'f' after the name and taxa which have been checked microscopically by adding 'm'

The information on this card, including name(s) of recorders and experts, is contributed to the BBS or BRC on the understanding that the data will be entered into a computerised database and may be passed to conservation agencies in Ireland and other third parties for use in nature conservation, research, education and public information. The information remains the property of the recorder or the recorder's employer.
