Rapid Woodland Assessment

Find out if your local woodland
could be home to internationally
important lichens, mosses & liverworts

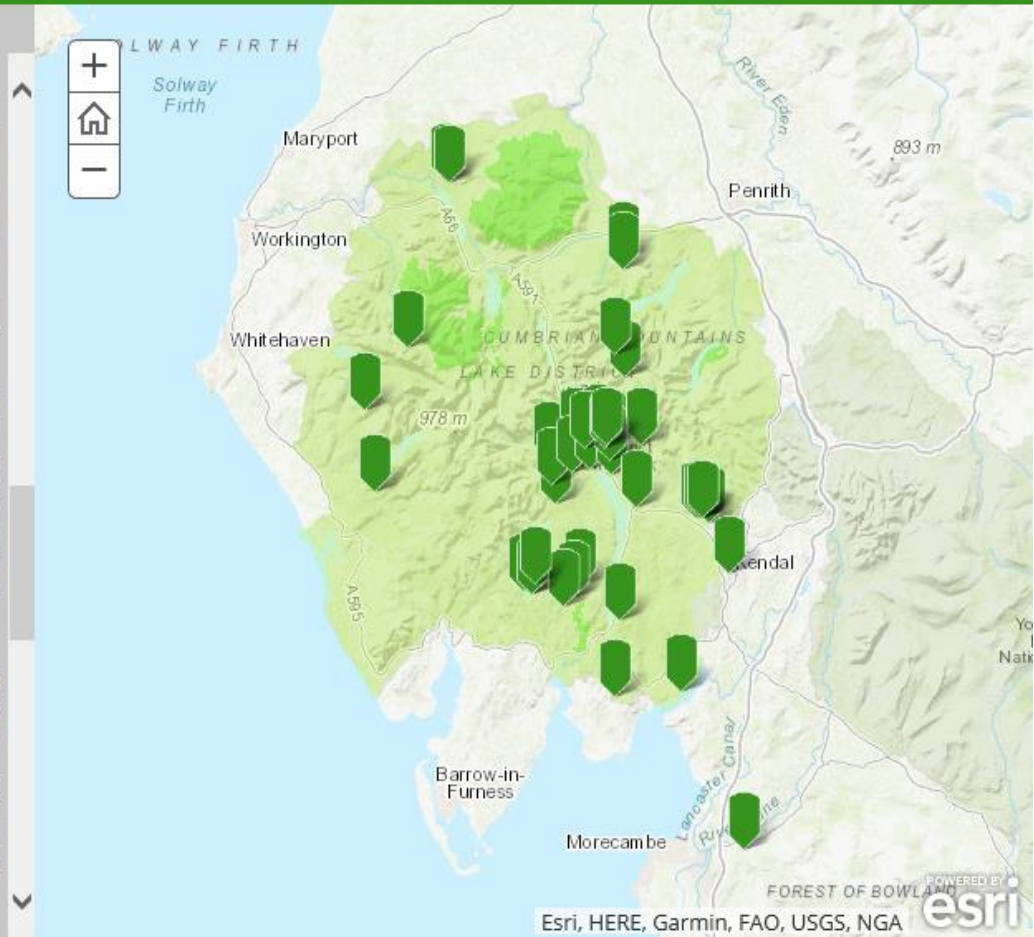

Rapid Woodland Assessment Results (Lake District)

A Story Map   

Here is a brief summary of the Rapid Woodland Assessment (RWA) data submitted so far. Purple pins show the locations of the surveyed woods. Click on the pin to see a summary of how the woodland scored for each section in the RWA. You can download a copy of the RWA from the Plantlife website to get more detail on how these scores are calculated. You will also see a list of any threats to

Helen's Wood, Rusland	High Sweden and Low Sweden Coppice	High Wood
		
Hird Wood	Jobson Close	Low Hag Wood, Windermere
		
Low Wood Brotherswater	Old House Wood	Peel Wood
		
Penny Rock Wood	Quakers Wood, Rusland	Roughsides
		

The Plantlife logo, featuring the word "Plantlife" in a white, stylized font with plant motifs integrated into the letters, set against a dark green background.
